

BARBARESCO A TAVOLA

27° edition

The Enoteca Regionale of Barbaresco presents the new 2017 vintage in a special collaboration with the restaurants of the area of production

The presentation will take form with simultaneous dinners in the participating restaurants of this initiative. Each evening will highlight the typical cuisine of the area enlightened according to each chef paired with a different approach of blind tastings with 20 different Barbaresco 2017 wines. This provides a unique opportunity to taste, match, and fully understand the vintage as a whole without prior influence. Only at the end of the evening will the names of the producers be revealed.
